

Simcoe County Early Intervention Council

Appreciation and Recognition

May 31, 2018

Dear Julie, Lesley and Lindsay,

Early Intervention Council (EIC) strives to recognize those who go above and beyond in one or more of the following areas that exemplify EIC values:

1. Service/system integration
2. Family centered service delivery
3. Early identification and education
4. Team Work
5. Change Championing

The Simcoe County Resource Consultation Service has nominated you for this recognition, highlighting your demonstration of the following EIC values: Change Championing and Family Centred Service delivery.

Your Resource Consultant has identified the exceptional work you have done to support children and families throughout a significant period of change in your program. She has noted that program numbers increased from 12-14 children to 20-24 in a program. Throughout this change you adapted to the change and overcame obstacles to support children's needs and growing family needs.

Your Resource Consultant also highlighted your exceptional support of families and children when they are not able to register in the nursery school program. Your responsiveness to ensuring these families are provided with strategies, next steps, and referrals to other services demonstrates your commitment to ensuring all families are able to access the resources they need to ensure their child is supported to succeed.

This commitment to children and families and ensuring they are connected to supports and services even when the child or family is not participating in your program is exceptional and we would like to recognize you for these practices. When families and children are given the right support at the right time it makes all the difference in the world to setting up families and children for success.

Thanks to each of you for your efforts in helping to support this success!

Sincerely,

Sue Neilon
